

ADMISSIONS CRITERIA FOR ENTRY OF PUPILS TO YEARS 9-13

The Headmaster of Campbell College administers the admissions procedure in accordance with these criteria established by the Board of Governors. Boys of all denominations will be accepted.

Post GCSE - Sixth Form Admissions

Pupils wishing to re-enter or join Campbell College at Sixth Form (Year 13) will require a minimum of five passes at GCSE (A-C grades) and are strongly recommended to have at least a C grade GCSE in English and Mathematics. Entry to Sixth Form is also subject to the applicant having a good disciplinary record and strong supporting references, either, from within Campbell, or, from a previous school.

Admissions to other Year Groups

For admissions to Years 9 -12 account will be taken of the ability of each pupil to benefit from the academic curriculum offered by Campbell College. A report, giving clear indication of satisfactory behaviour and academic potential, will be required from the pupil's present school. Additional factors to be considered will include any special aptitudes and talents of the pupil, or other special circumstances.

The Headmaster is authorised to make available boarding places for each year group according to need.

Admissions must be contained within the School's Total Enrolment Number as agreed with the Department of Education. Availability of places will therefore depend on existing enrolment of the School at the time of application and the distribution of pupils across the different year groups.

Due to the nature of GCSE courses, admissions to Year 12 will only be considered in exceptional circumstances.
